

## ECASA WP 3

### ***Annotated sheet for indicators related to the impact of the environment on aquaculture***

#### **1- Name of indicator**

TUNAS  
Frequency of observation of tuna fish

#### **2- Related source of pressure**

Predator attack

#### **3- List of data / parameters required for computation.**

Frequency distribution data

#### **4- Description of scientific meaning, references**

Complementary to the indicators COLONIES and DOLPHINS, the frequency of tunas, major predator of aquaculture, that have been observed in the area is indicative of the risk of attack from those fishes.
